## PERMIT FOR BURNING IN AN OPEN FIELD

### **Sec. 14-24. Burning of wood and wood byproducts.....**

(2) b. A burning permit is obtained from the village offices and issued by the village clerk (or deputy clerk) at least 48 hours in advance of the date on which the burning is to occur, with such permit being valid for only a 48-hour period. The purpose of such village burning permit is to limit the number of occasions on which a person may burn wood or wood byproducts in a fire pit or open field and does not relieve the applicant of any liability or from taking all steps to ensure that all proper safety precautions are taken. Further, the village burning permit is subject to and conditioned upon the applicant obtaining a burning permit from the state department of natural resources.
