

## Village of Elk Rapids Trail Routing Adjacent Landowner Outreach Meeting

Routing is underway for the Traverse City ↔ Charlevoix Trail through the Village of Elk Rapids. Please join us at a special meeting for adjacent landowners on March 9, 2020 at the Village offices to review the information and feedback compiled through an engineering assessment and meetings with the public and other stakeholders throughout this planning process.

The Village routing process is being led by the Village of Elk Rapids, and follows the completion of preliminary design for the 11-mile trail segment between Acme and Elk Rapids this summer. The area under study is from the Village of Elk Rapids' southern limit, through the Village, to the intersection of Dexter and US-31. The design engineers reviewed several alternative routes through the Village this past fall, including two already designated routes through the Village. **The meeting on March 9 will be an opportunity to hear from Village representatives and the design engineers about the routing process, considerations for trail routing, and a recommended route through the Village.**

For those who cannot attend, information will be provided on-line following the meeting at [traversecitytocharlevoixtrail.org](http://traversecitytocharlevoixtrail.org). If you have any questions or would like to share feedback, please contact Caroline Kennedy at: [ckennedy@elkrapids.org](mailto:ckennedy@elkrapids.org).
